

Appendix L Annual Progress Reports

Contents of this Section

- L.1 Summary of Progress Reporting Process
 - L.1.1 2012 Progress Report
 - L.1.2 2013 Progress Report
 - L.1.3 2014 Progress Report
 - L.1.4 2015 Progress Report

L.1 Summary of Progress Reporting Process

The following is taken from Section 10, Monitoring and Maintenance:

Informal Plan monitoring activities will be ongoing. In addition to the FEMA mandated five year update cycle, the Plan Review Team will perform an informal review of the Plan at least annually, or more often as circumstances require. At least annually, a progress report will be prepared, noting any updates to information in the Plan or progress that has been made towards the goals, objectives or actions identified in the Plan. These reports will be found in Appendix M.

In addition to fulfilling the City's obligation to effectively monitor this hazard mitigation plan, this activity can also aid in fulfilling a requirement of the NFIP's Community Rating System program. While the City is not currently a member of the CRS, joining the program is a mitigation action described in Section 9.

The following sub-sections contain the annual progress report for this mitigation plan.

L.1.1 2012 Progress Report

L.1.2 2013 Progress Report

L.1.3 2014 Progress Report

L.1.4 2015 Progress Report
